

## COAL STRIKE IN GREAT BRITAIN MAY SOON END

Federation Announces Willingness to Enter Into Negotiations With Owners to Secure Settlement.

## DOUBLE BREWING IN UNITED STATES

Working in the Mining Districts of Germany; One Man Is Killed and Many Injured in Clash With Police.

BY W. T. STEAD.

London, March 13.—The general impression tonight is that the coal strike is nearing a settlement. Early today the miners' federation announced its willingness to enter negotiations with the coal owners' association to secure a settlement of all points in dispute at the earliest possible moment. This concession had been rejected a fortnight ago as impossible.

## Compulsion.

Believed these suggestions, a representative of the government should attend the district conference. The men fear that this is an offer to compulsory arbitration, which they unanimously resist. The proposition is accepted the day after tomorrow to enable the government to consider Premier Asquith's suggestion.

## SAYS EVERYONE CAN HAVE AN ABUNDANCE OF PRETTY HAIR

Never any falling hair, itching scalp or dandruff if you use a little Danderine.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine. The very first application cleanses the scalp, stops itching, destroys and dissolves every particle of dandruff and prevents the hair from falling out.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25-cent bottle of Danderine's Dandruff Remedy and use it as directed.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

"Danderine" had been carefully inserted in their counter proposition so as to make it read "our offer to continue the present agreement seems to be all that the present industrial conditions will warrant."

After an instant's hesitation, the spokesman for the operators replied: "Yes, our proposition is absolutely fair and reasonable."

Talk of Compromise. Talk of a compromise is already in the air, however. From an authoritative source the International News Service learned today that as a final result of the strike is over, the situation here, however, is still grave enough to cause apprehension in business circles of a worldwide slump of coal mines while the strike continues.

Following today's conference, President White is a strong, moderate, resourceful leader and a worthy successor to John Mitchell, said.

On March 20 there will be no modification of our demands and if the operators refuse to meet our terms the strike will in all probability be called April 1.

## SUGAR TRUST TO PAY LIBERAL PENSIONS

Directors Decide Upon New Policy While Company's Officers Are on Trial.

## THOMAS GETS EXCUSED

Feature of the Case Yesterday Was Admissions Made by Government Witness.

By International News Service.

NEW YORK, March 13.—With four of its principal officers on trial charged with conspiring to restrain and monopolize trade, the sugar trust today adopted a pension plan for its employees.

This new policy was decided upon at the annual meeting of the board of directors in Jersey City, Washington, D. C., Thomas, who succeeded Henry O. Havemeyer as executive head of the big combine, was excused by Judge Hand, before whom he and three other directors are being tried in the criminal branch of the United States district court, from attending the court session in the afternoon in order that he might discharge his duties as chairman of the board.

The pension fund was started with an appropriation of \$500,000 from the company's surplus. The scheme provides for the retirement of all officers and employees of the company who are over 65 years of age. In the case of women the age limit is 60. Retirement can be effected at the option of the company or at the request of the persons entitled to it.

Amount of Pensions. The pension is to be 1 per cent of the annual salary of wages for the preceding ten years, to be multiplied by the years of service with the company. A pension shall exceed \$5000 a year. It is also provided that no pension to a person who has been in the service of the company for twenty years shall be less than \$25 a month. The first appropriation of \$500,000 will be annually added to the fund.

The feature of the trial of John E. Parsons, Washington, D. C., Thomas, Arthur Donner, Charles H. Frazier and Thomas B. Harn today was the giving out of a statement made by a dying man concerning the alleged connection with the alleged conspiracy which the defendants are being tried. It was upon the statement of the dead man's son, Thomas Kiesel, that the statement was made public. Young Kiesel is executor of the estate of his father, Gustave E. Kiesel, for many years one of the most prominent brokers of New York.

Kiesel was included in the indictment returned nearly two years ago by the federal grand jury against the five men now at the bar. The fifth man (Harn) is a Philadelphia lawyer, against whom it is alleged that he participated in the conspiracy to restrain trade and to monopolize the sugar market.

Made Bad Witness. C. W. Bennett, who was Gustave Kiesel's lawyer in the transaction, proved a bad witness for the government today. He was placed on the stand by United States Attorney Wise primarily for the purpose of opening the way for the introduction of documentary evidence in his possession bearing upon the transaction. But under the liberal rules of Judge Hand, DeLancey Kiesel, chief counsel for the defendants, admitted him on to the making of statements which seemed to show that Kiesel was not deliberately victimized through the chicanery of the sugar trust. Attorney Bennett testified that Kiesel had tried to get money from various sources for Segal before the broker approached the sugar trust people. He also swore that Henry O. Havemeyer had said that if Kiesel would bring whatever he could to Segal, Bennett further asserted that when Kiesel told Segal that he probably could secure the required loan from sources hostile to him Segal replied:

"I would take the money from the devil himself, because if I do not get it I will fail."

Havemeyer Is Surly. Horace Havemeyer, son and executor of the estate of the founder of the sugar trust, was another witness who did not seem to do the government's case any good. Mr. Wise had subpoenaed him to produce certain documents from the files of the dead sugar magnate's belongings. He replied in rather surly manner to every question that he had been unable to find anything when questioned by the government's prosecutor.

William H. Whiteside, who had been long associated with Segal, testified quite fairly for the most part but he had been the dummy secretary in several of Segal's dummy corporations.

The statement of Gustave E. Kiesel was made a short time before he died. April 10, last year. The statement opens with the solemn assertion that the defendant realized that he was approaching death and therefore probably could not defend himself in court against the charges in the government's indictment. The statement is a strong denial of the charge that Kiesel entered into an unlawful conspiracy with the directors of the American Sugar Refining company and Harned or anybody else.

Mr. Joseph Aronstein, 55 Avenue de l'Hyppodrome, Bruxelles, writes: "En voyez-moi de suite par poste une douzaine de Baumann's Gas-Tablets. Ces tablettes sont le meilleur remède dont je me suis jamais servi pour mon estomac."

These peculiar tablets are sold for 50c a bottle by nearly every druggist. If not in stock, tell him to get them for you from his wholesaler, or send 50c in silver, stamps or money order to J. Baumann Co., 335 Sutter Street, San Francisco.

ALMOST CHOKED With Gas LAST NIGHT Around My Heart

Couldn't breathe, many people say. No more choking or anxiety like that if you will take Baumann's Gas-Tablets for a few days.

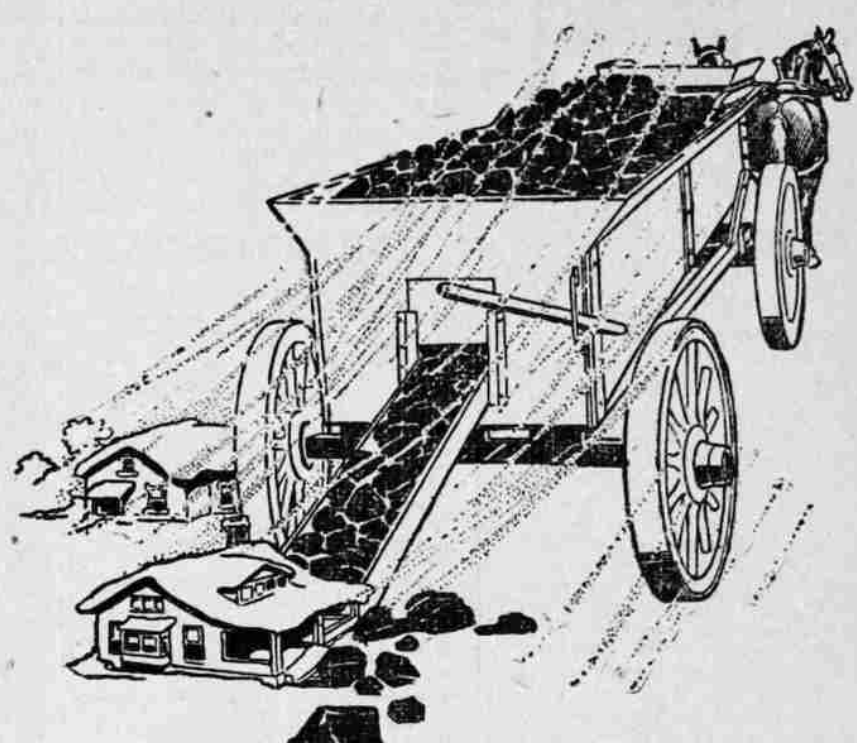

Baumann's Gas-Tablets are prepared distinctly and especially for Stomach Gas, and particularly for all the bad effects coming from gas pressure against your vital organs—your heart.

# So much for so little

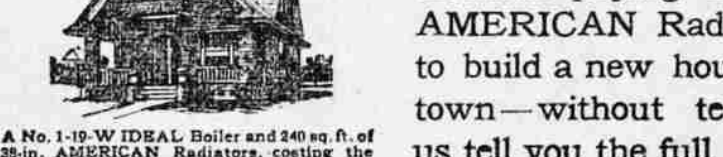

Suppose you could have delivered in one giant wagon all the coal you burned in the last 15 years in striving to warm your cottage by old-fashioned heating. Then, if you could see alongside of it a wagon to contain the far smaller amount of coal you would burn in the next 15 years by use of our ideal heating, the contrast in fuel-saving would be so great that you would gladly put in at once an outfit of

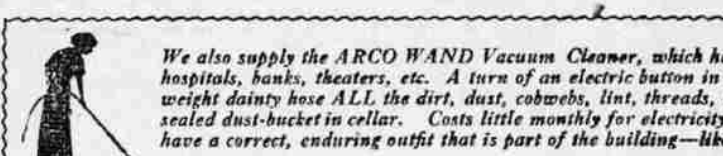

## AMERICAN & IDEAL RADIATORS & BOILERS

ing results—they shut off all fuel waste. We take pardonable pride in saying, further, that in the many thousands of instances in which IDEAL Boilers have been installed in place of other heating methods or apparatus, they have proved far more economical in fuel than the heaters which they replaced—often reducing fuel bills one-half. Thus fuel-savings, plus health-protection, lessened house-cleaning,

less wear on household furnishings, absence of repair bills, lower insurance rate, and long life of the outfit make a dividend-paying investment of IDEAL Boilers and AMERICAN Radiators. Don't think you have to wait to build a new house—easily put in old houses—farm or town—without tearing up in the least. Please let us tell you the full why, how and present attractive price. Ask for book—puts you under no obligation whatever to buy. We give you much comfort for so little money.

A No. 1-19-W IDEAL Boiler and 240 sq. ft. of 38-in. AMERICAN Radiators, costing the owner \$115, were used to heat this cottage. At this price the goods can be bought of any reputable, competent fitter. This did not include costs of labor, pipe, valves, freight, etc., which are extra and vary according to climatic and other conditions.

We also supply the ARCO WAND Vacuum Cleaner, which has iron suction pipes running to various floors of houses, flats, schools, churches, hotels, hospitals, banks, theaters, etc. A turn of an electric button in any room starts the machine in basement, and with the magical ARCO WAND and a light-weight duster hose ALL the dirt, dust, cobwebs, lint, threads, moths, insect eggs, etc., are drawn with lightning rapidity down the iron piping into the big, sealed dust-bucket in cellar. Costs little monthly for electricity to run. No dragging around a clumsy, inefficient portable vacuum cleaner—instead, you have a correct, enduring outfit that is part of the building—like heating or plumbing. Ask for catalog of the ARCO WAND.

## ADVERTISING TALKS

(Continued From Page One.)

AGAINST UNTRUE AND MISLEADING ADVERTISING. Every merchant is either a PROGRESSIVE or a STAND-PAT advertiser.

THE CONSUMER, as the chap who always pays, IS VITALLY INTERESTED IN THE OUTCOME.

THE STAND-PAT PLATFORM. Let us alone. It seems almost useless to include price and comparison of value in any advertising law that would be enforceable.

THE PROGRESSIVE PLATFORM. MISLEADING ADVERTISING IS ILLUMINATED LYING.

Knowing untrue or misleading advertising of price, worth or value, is a misdemeanor subject to penalty.

Every newspaper in Boston and Massachusetts is also either a PROGRESSIVE or a STAND-PAT advertiser.

THE STAND-PAT NEWSPAPER PLATFORM. Everything is "grist that comes to our mill."

THE PROGRESSIVE NEWS-PAPER PLATFORM. LOSS OF PUBLIC CONFIDENCE IN THE STATEMENTS

John W. Sichel-Smith, Greensboro, Pa., has three children, and like most children, they frequently take cold. "We have tried several kinds of cough medicines," he says, "but have never found any yet that did them as much good as Chamberlain's Cough Remedy." For sale by all druggists.

## MADE LESSENS THE VALUE OF ADVERTISING SPACE.

Cut out the bait of misleading comparisons of values, and the advertiser must describe the goods and give a real reason.

True advertising requires more space, not less.

Some States have drastic laws against the "Jack Rabbit promoter" who advertises a hole in the ground as a producing mine.

A broadening of this law to include untrue statements regarding the worth and value of merchandise is demanded.

We stand squarely on the PROGRESSIVE ADVERTISING PLATFORM.

The above is a sermon by itself and indicates what is going through the minds of merchants throughout the country who stand on a platform of plain, old-fashioned honesty in the matter of their advertising and the conduct of their business.

(To be continued.)

## HEYBURN SHOWS UP TO VOTE FOR PITNEY

Special to The Tribune. WASHINGTON, March 13.—J. H. Brady of Idaho is here in connection with irrigation matters pending in the interior department. He had an interview with President Taft this morning and assured him that Idaho will be for him in the national convention.

Senator Heyburn attended the session of the senate today in order to vote on the nomination of Judge Pitney for the supreme court, but will probably not attend another session this week, as his health has not materially improved and his physicians urge a complete rest for a week or two.

\$2.50. Logan and Return. Saturday, March 16th, via Oregon Short Line for Salt Lake Opera Company excursion. Special train will leave Salt Lake 3:09 p. m., returning after the opera.

## WHITE PHOSPHORUS MATCHES UNDER BAN

By International News Service. WASHINGTON, March 13.—With the design of stopping the manufacture of white phosphorus or sulphur matches, the ways and means committee has reported favorably a bill fixing a tax of 2 cents a hundred matches made by the poisonous phosphorus process.

The action followed a report by the department of commerce and labor, which found in an investigation of fifteen match factories that 65 per cent of the employees are in constant danger of phosporous poisoning and that the women are in greater danger than the men.

The passage of the bill will probably result in the manufacture of all matches by the harmless acetyl-sulphide process or the red amorphous method. The acetyl-sulphide process was until recently controlled by the Diamond Match company, but the company has voluntarily surrendered the patent and its use is now open to any manufacturer.

## CORRESPONDENCE IS SUBMITTED TO HOUSE

WASHINGTON, March 13.—Secretary Stimson transmitted to the house today the correspondence in connection with the relief from duty of Adjutant General F. C. Alworth, prior to his recent voluntary retirement.

The papers disclosed numerous instances of the adjutant general's communications with his associates which the war department construed as examples of language of an intemperate and discourteous character, detrimental to the interests of the army.

## ITALIANS SLAY TWO THOUSAND ARABS

BENGHAZI, Tripolitania, March 13.—More than 1000 Arabs were killed and another 1000 wounded in the stiffest encounter of the Turco-Italian war, according to Italian dispatches, when the Italians yesterday stormed and occupied two bases, northeast of Fojal, which were strongly entrenched and held by a large force of Arabs.

The Arabs defended their positions with the utmost bravery but finally were routed by the Italian troops at the point of the bayonet.

Over 400 Arab corpses were left on the battlefield and the Italian officers report that an enormous number were carried off by the retreating enemy. The loss of the Italian troops is given as three officers and twenty-five soldiers killed, while they also had seven officers and fifty-five soldiers wounded.

## BELIEVED PRESIDENT WILL SIGN BORAH BILL

Special to The Tribune. WASHINGTON, March 13.—The senate today continued the nominations of Utah postmasters, L. W. Anderson of Brigham and Dennis Wood of Nephi.

Up and Down? Go To Your Doctor Ayer's Sarsaparilla is a tonic. It does not make you feel better one day, then as bad as ever the next. There is not a drop of alcohol in it. You have the steady, even gain that comes from a strong tonic. Ask your doctor all about this. Trust him fully, and always do as he says.
